

HPLC Purification of affinity-purified human PCT

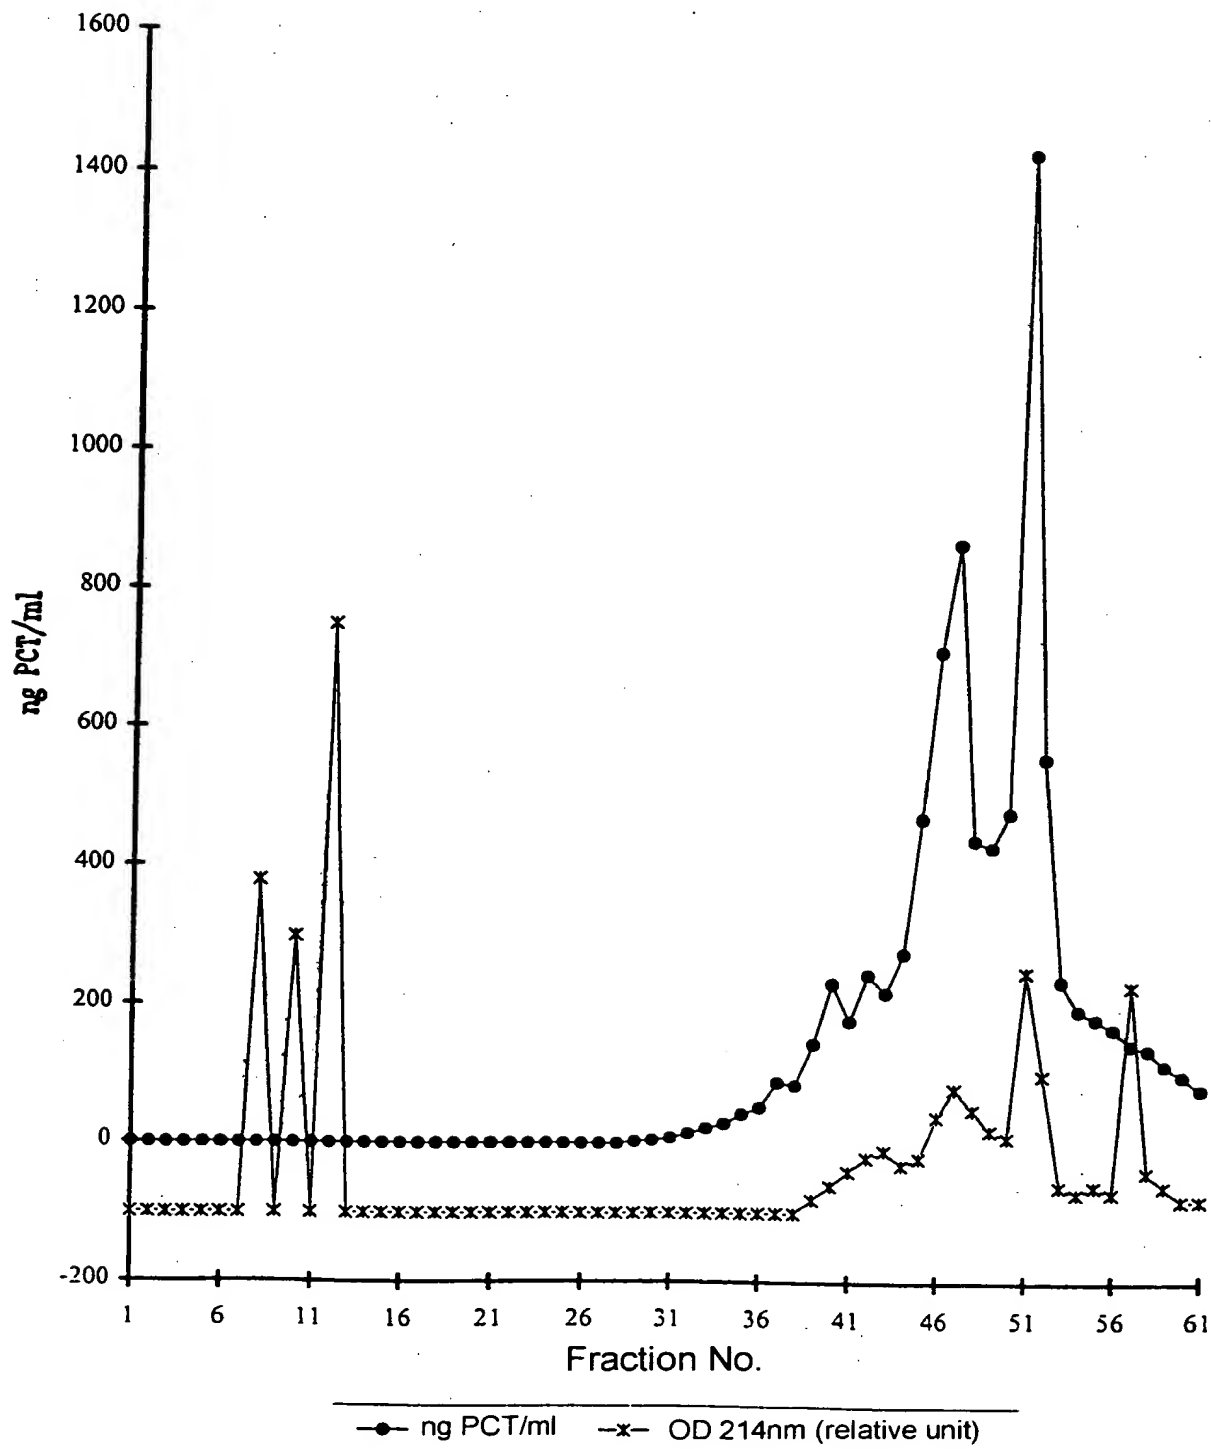

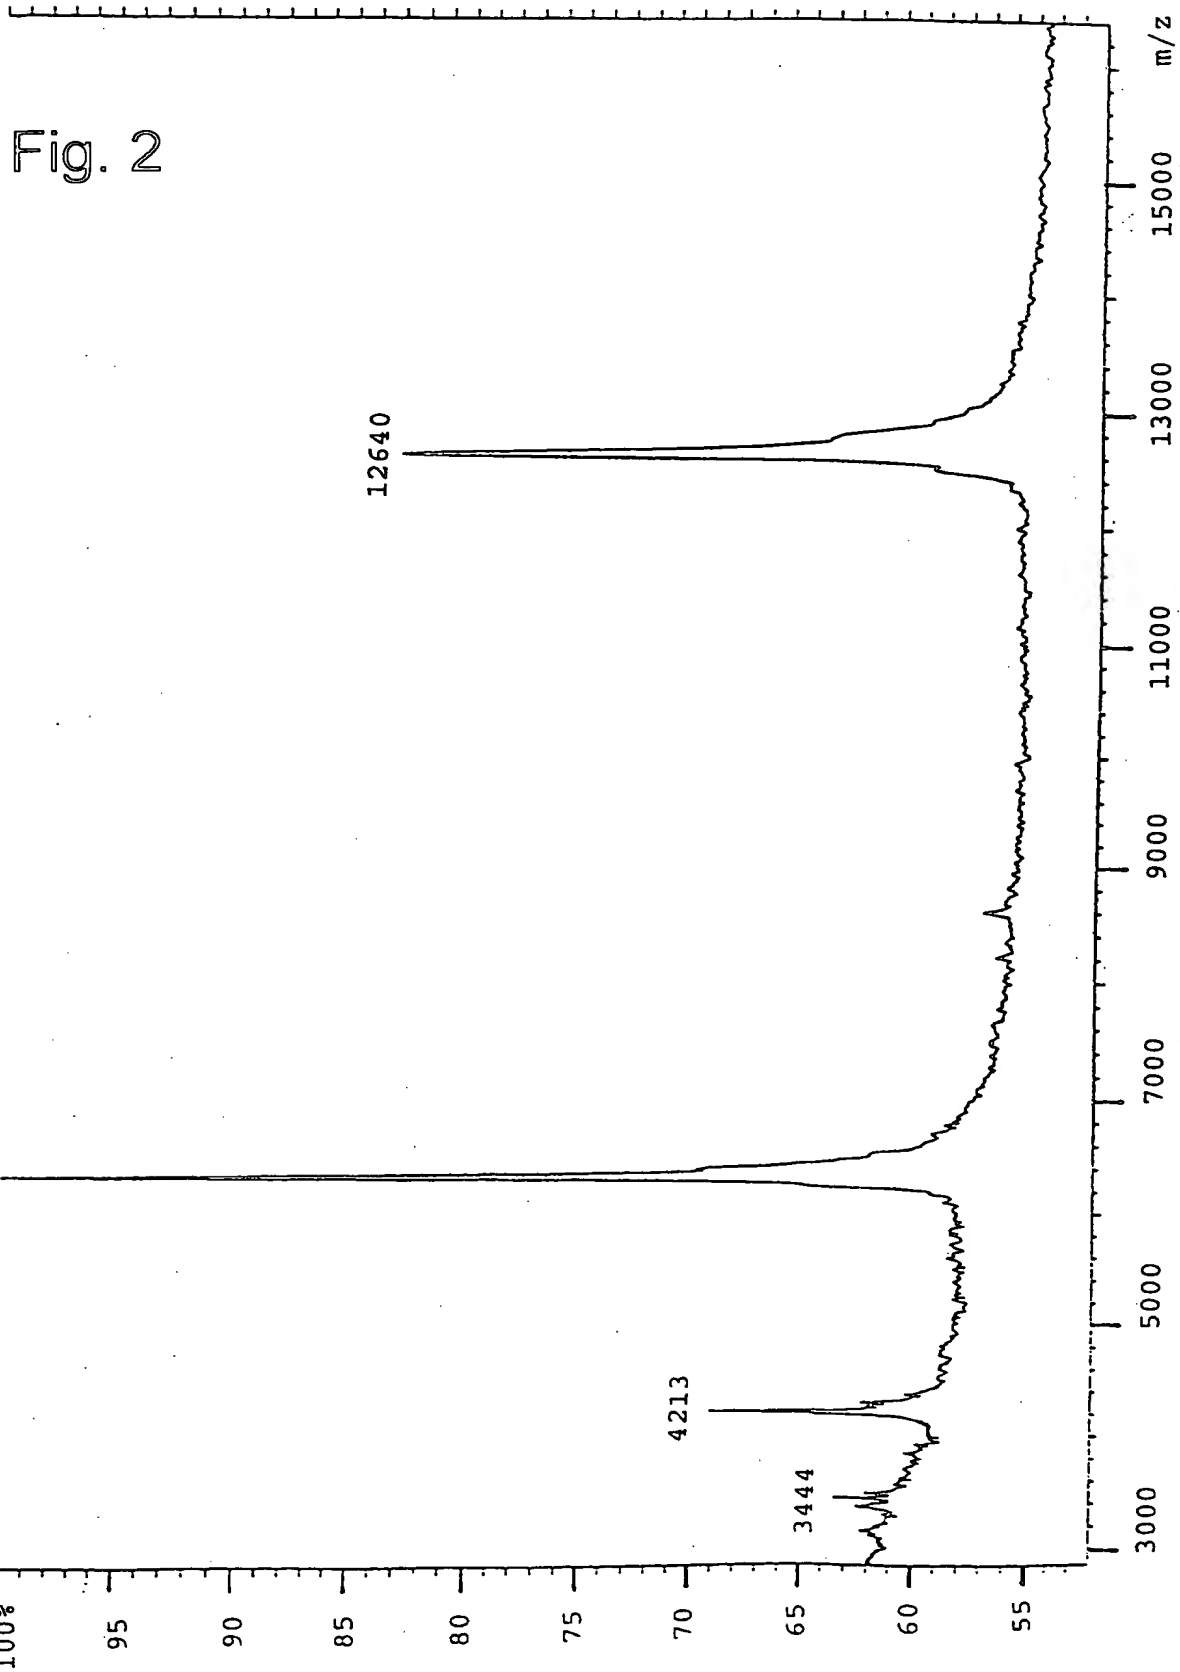

Fig. 1

Enzyme activity of DAP IV in septic sera vs. blood donor sera

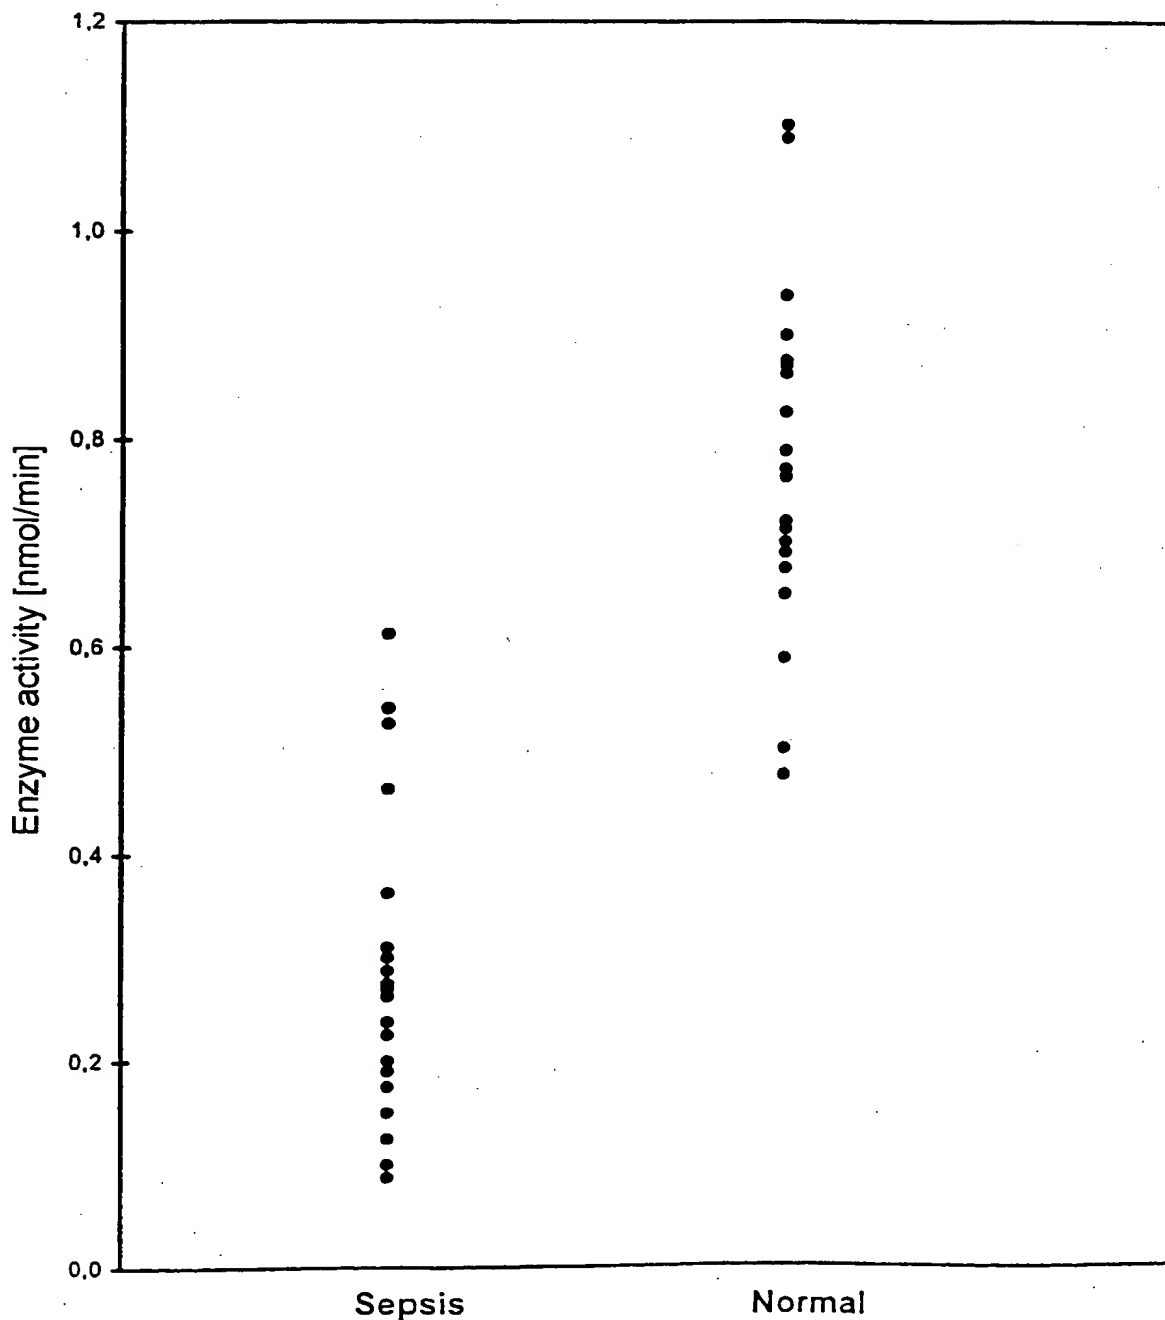

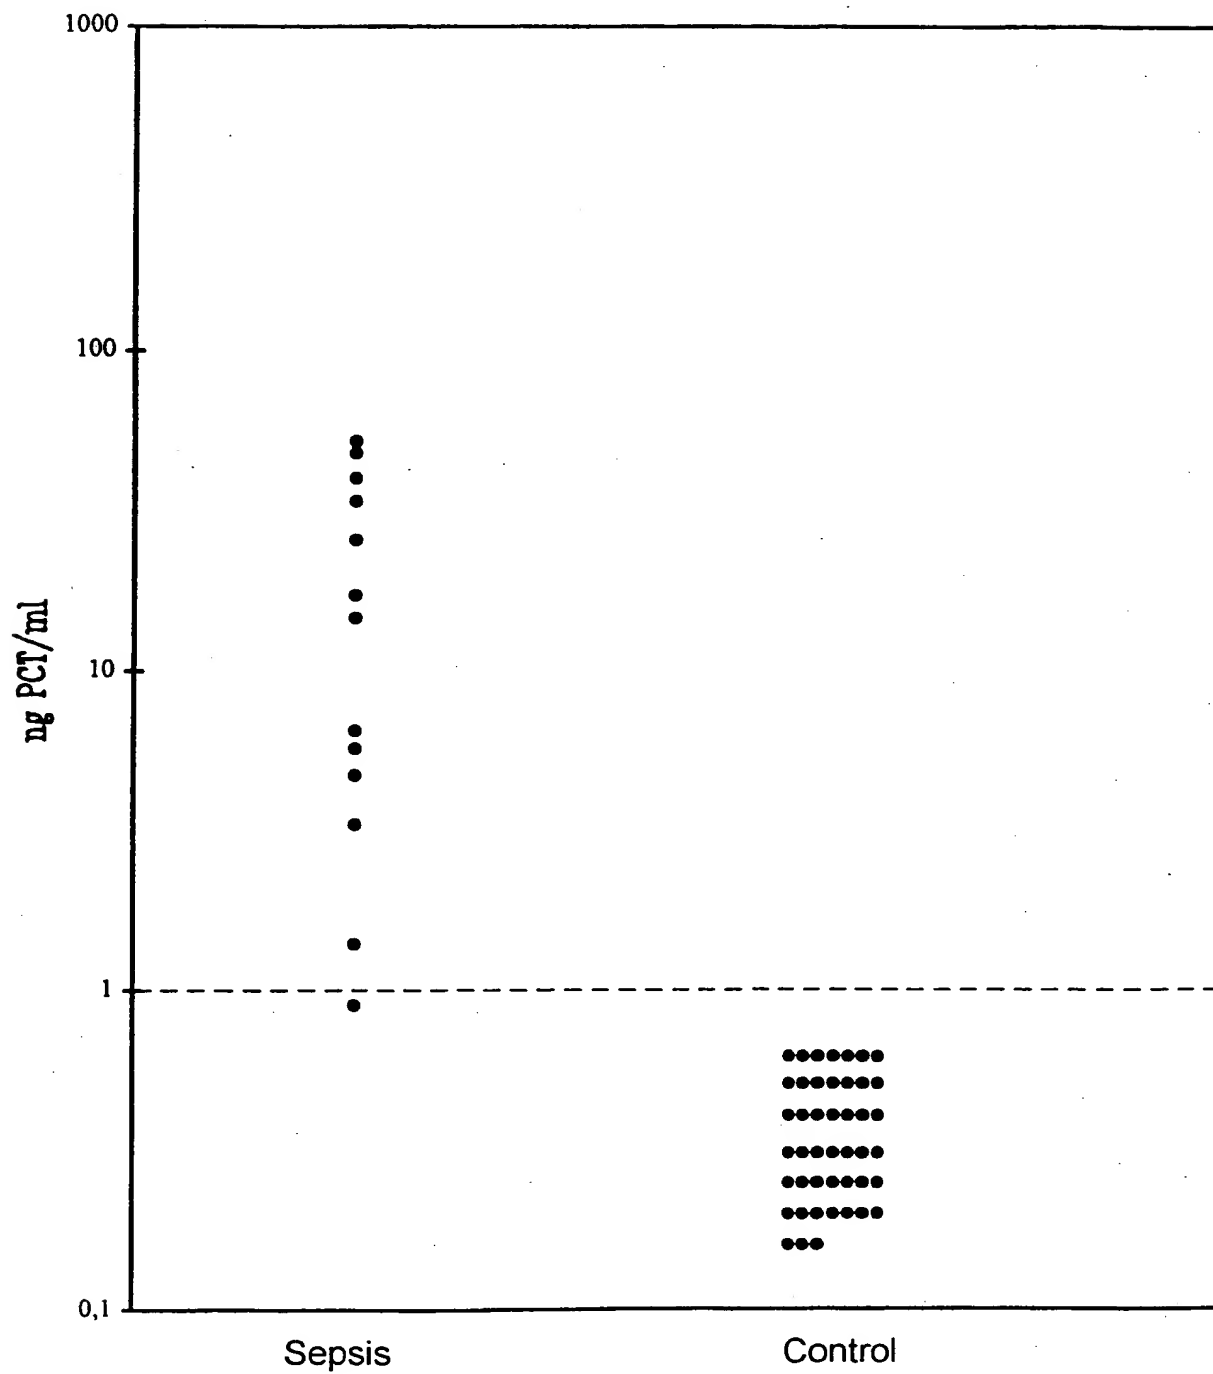

Fig. 3

Procalcitonin

Pro-GRP

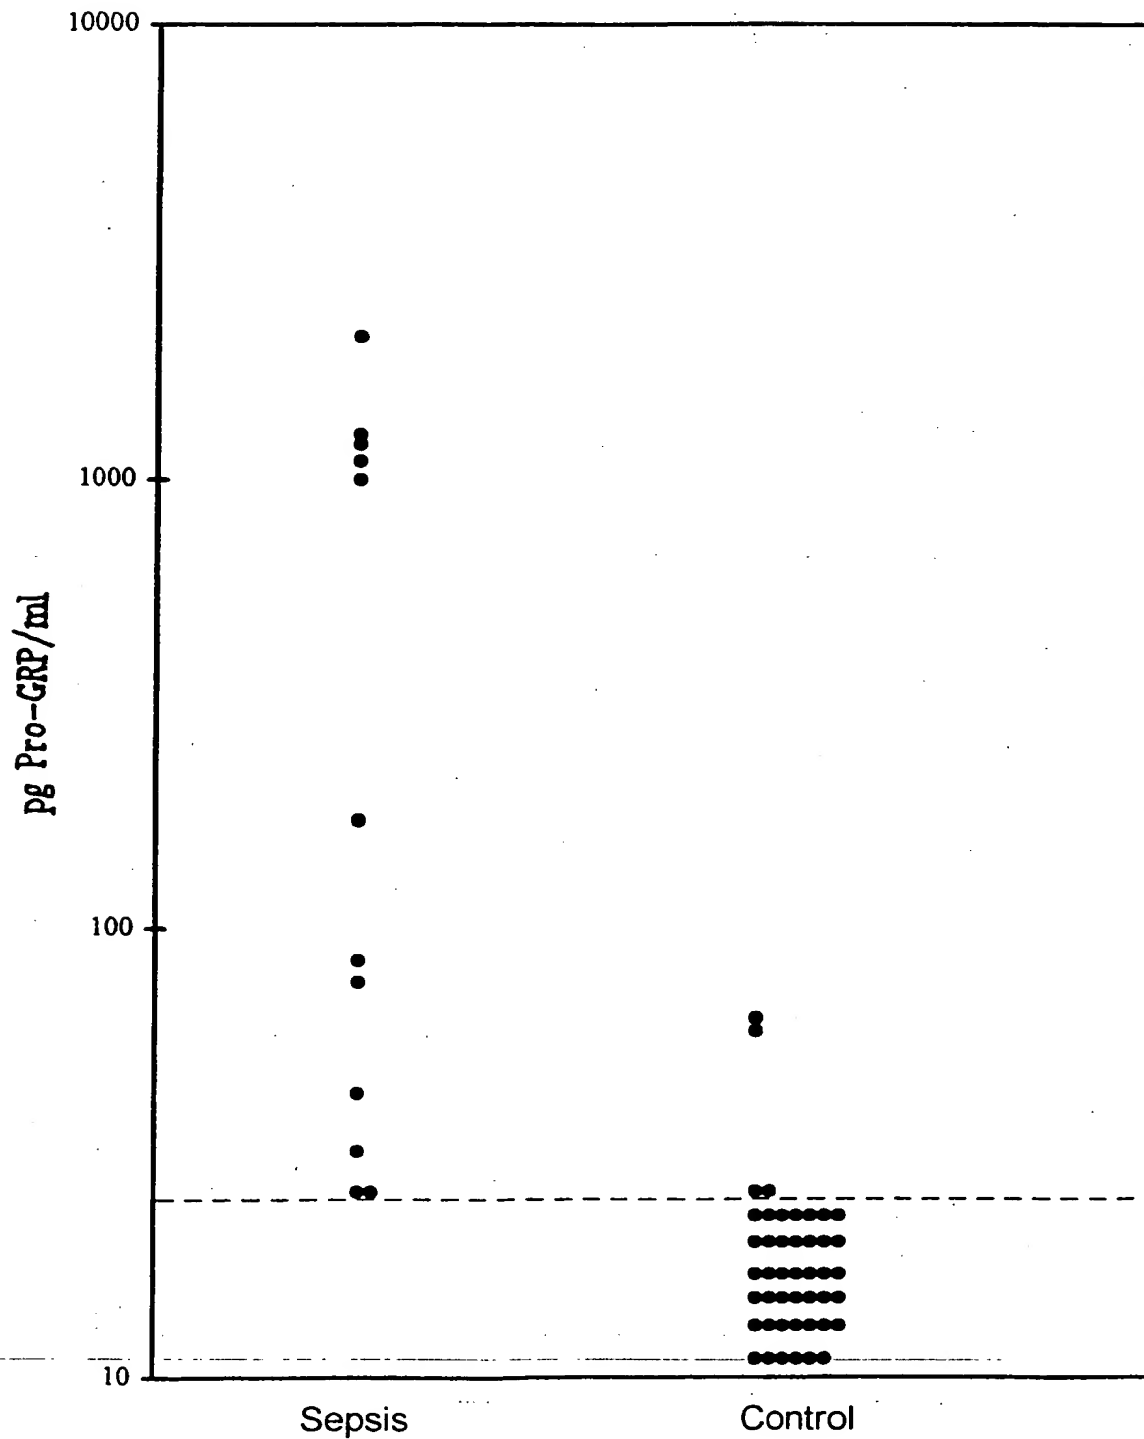

Fig. 4b

Comparison of the procalcitonin concentration of
normal patients vs. sepsis patients

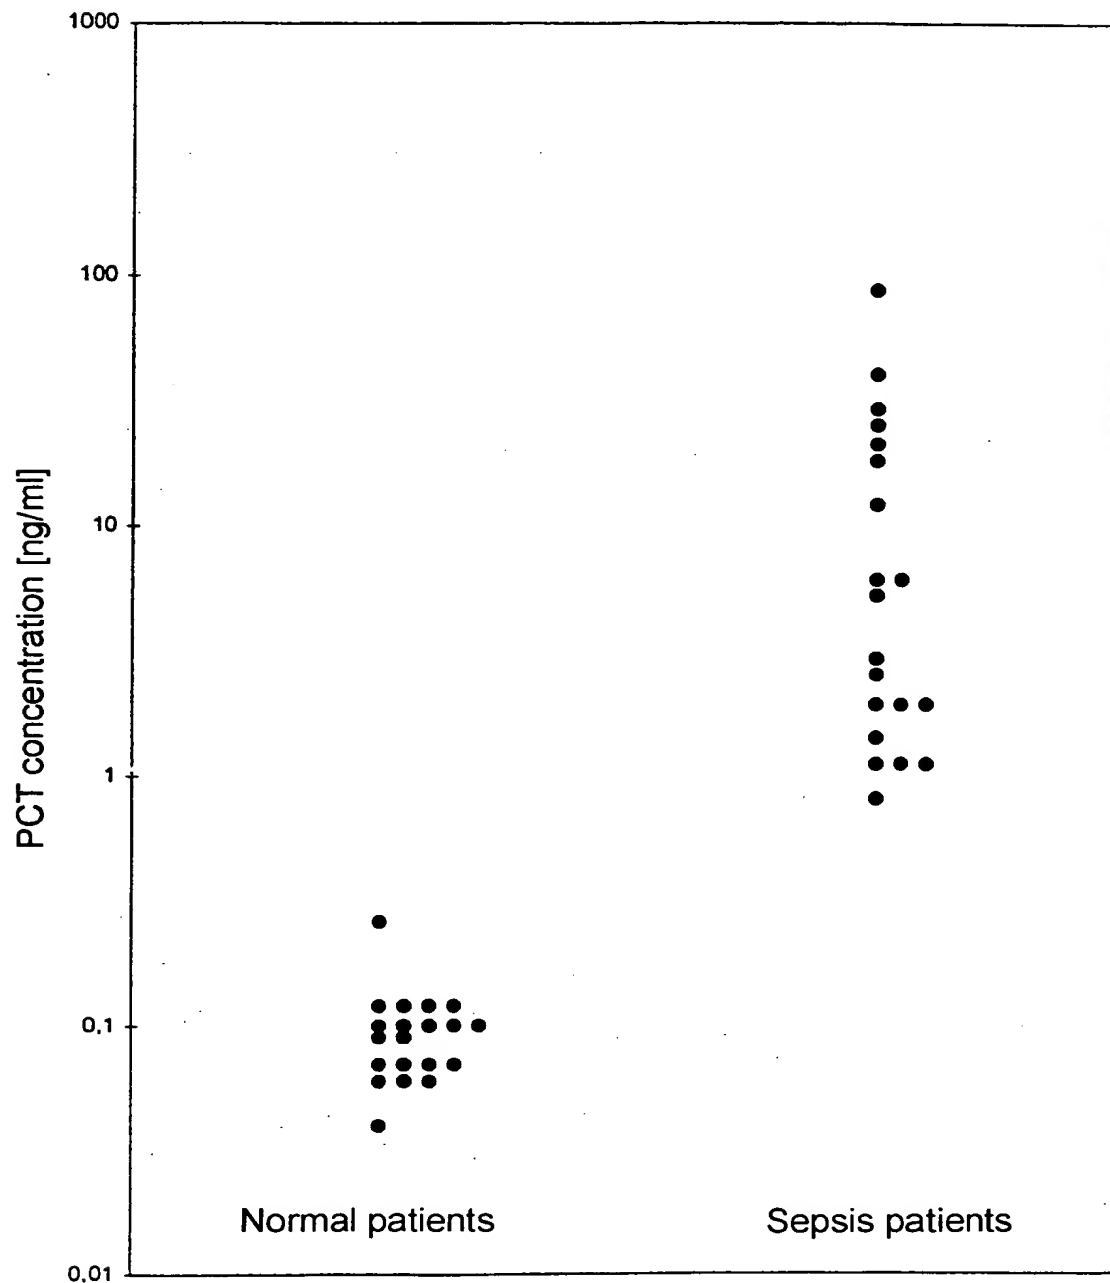

Fig. 5

Fig. 6

Fig. 7

Comparison of the prepro-endothelin (18-50) concentration of
normal patients vs. sepsis patients

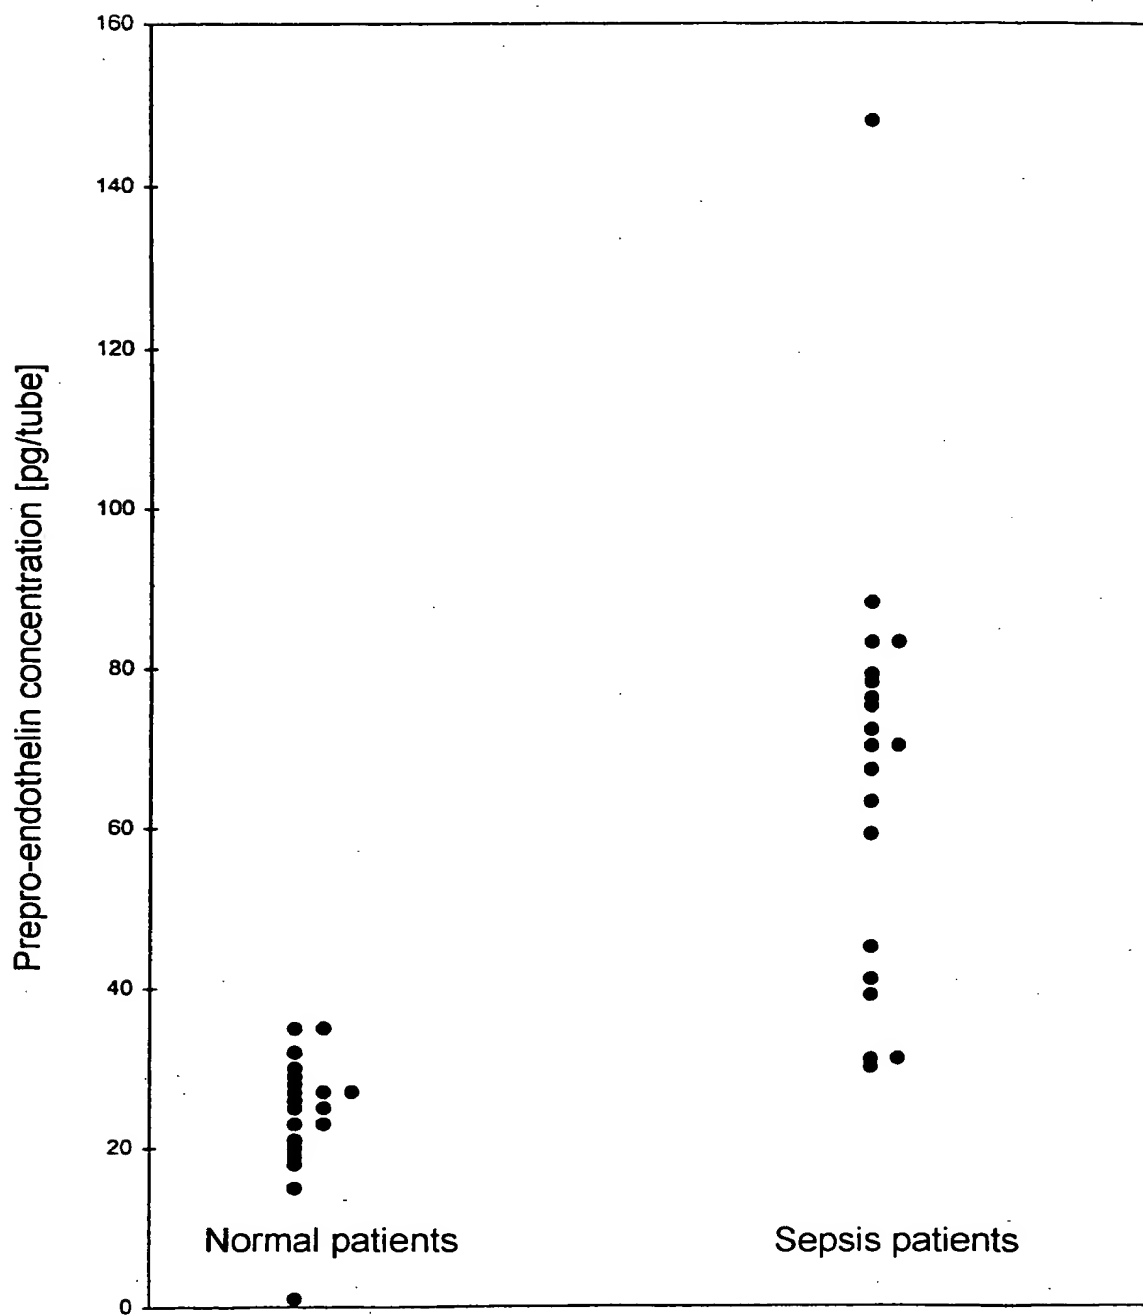

Fig. 8

Comparison of the prepro-BNP (22-46) concentration of
normal patients vs. sepsis patients

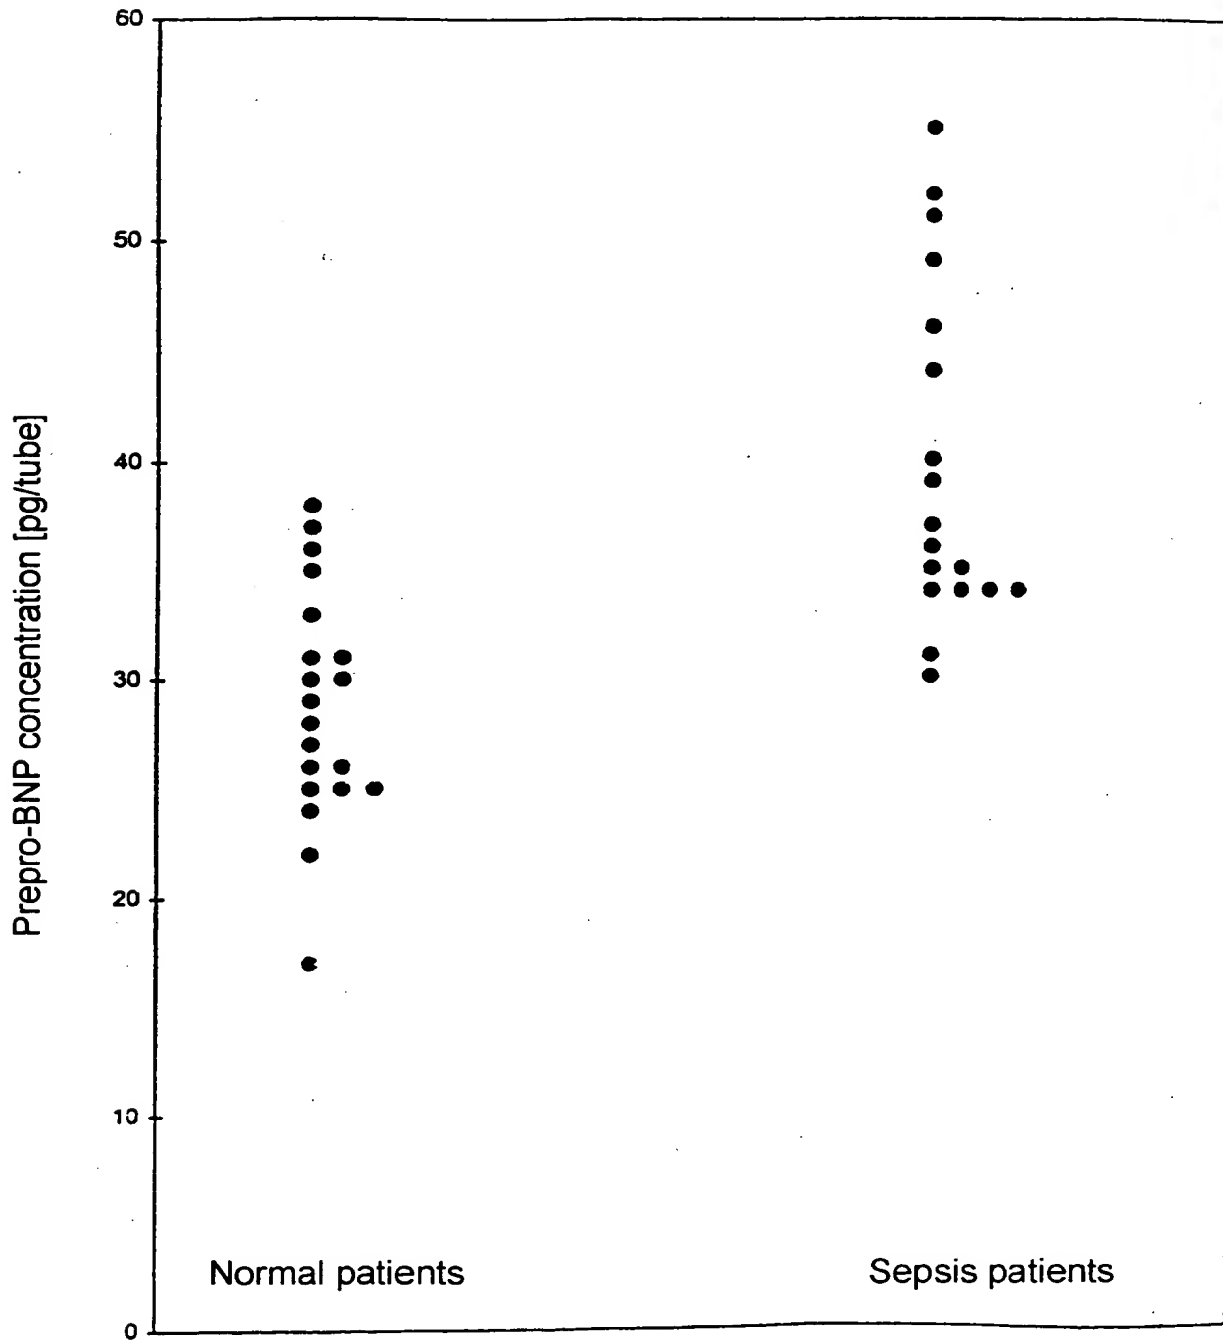

Fig. 9
